

From 5,880 EUR

The SetupWizzard – where technology translates to victory!

- Champion 24h Nürburgring 2015 & 2016
(2015: Audi Sport WRT, 2016: Mercedes-AMG Black Falcon)
- Champion Porsche Carrera Cup 2016 & 2017 (Konrad Motorsport)
- Champion Formula E 2017 (Abt Schaeffler Formula E Team)
- Champion Pro-AM Lamborghini Middle East Series 2017 (Konrad Motorsport)

Racing is full of surprises. Your wheel alignment does not have to be one of them. Take control. Choose the SetupWizzard.

SetupWizzard is the innovative vehicle measuring tool developed by motorsport specialist CP autosport. With SetupWizzard suspension measurement and adjustment are elevated to a whole new level! Time is of the essence, not only on the track but in every aspect of motorsports. SetupWizzard delivers results in just minutes. Easy. Quick. And precise.

ACCURATE. QUICK. RELIABLE. – it's time to finally cut that cord!

The innovative wheel alignment system SetupWizzard from CP autosport ensures perfect suspension measurement of toe, camber and corner weights at the race track. An optional ride-height measurement system is also available.

The system's big advantages:

- Save valuable time between practice sessions on a race weekend
- Quick and easy assembly of measurement system
- Suspension components easily accessible
- Increased measurement accuracy compared to conventional systems
- Modular design subject to customer demands
